

Important update to your coverage for at-home COVID-19 tests

Starting May 12, 2023, the two national emergencies addressing COVID-19 will end.

On that date, at-home, over-the-counter (OTC) COVID-19 tests (with or without a prescription) will **no longer be covered** under your plan's coverage.

You can pay out-of-pocket and still get your at-home tests through two ways:

1. Order online via your pharmacy's website or app.

2. Visit your local retail pharmacy. If tests are available, you may purchase directly from the front counter.

If you have additional questions, contact your plan's sponsor.
