Monthly Premium

Please contact State Employee Health Plan for more information about the premium for this plan.

Medicare Part D Drug Payment Stages

All Medicare Part D prescription drug plans have drug payment stages where drug costs may vary. You move through each stage based on the amount either you or the plan spend on prescription drugs. See the following section for information on the Medicare Part D drug payment stages. The Part D *Explanation of Benefits (EOB)* and other plan materials include additional information on the three drug payment stages.

Stage 1: Annual Deductible Stage

Annual deductible of $350. The deductible doesn't apply to covered insulin products and most adult Part D vaccines, including shingles, tetanus and travel vaccines. The deductible does not apply to Tier 1 and Tier 2.

Stage 2: Initial Coverage Stage Cost Sharing

During the Initial Coverage Stage, you pay a portion of your drug costs, and the plan pays its portion. The following tables show what you pay until your out-of-pocket covered Part D drug costs reach $2,400. You may get your drugs at network retail pharmacies or through the mail-order pharmacy.

Who can join?

To join SilverScript, you must be eligible for coverage provided by State Employee Health Plan, be entitled to Medicare Part A and/or be enrolled in Medicare Part B, be a United States citizen or be lawfully present, or an eligible noncitizen and live in our service area. SilverScript is available in the United States and its territories.

Which drugs are covered?

To find out if your drug is on the formulary (list of Part D prescription drugs) or about any restrictions, call Customer Care. You may also request a copy of the complete plan formulary.

SilverScript does not cover prescription drugs that are covered under Medicare Part B as prescribed and dispensed. Generally, we only cover prescription drugs, vaccines, biological products, and medical supplies that are covered under the Medicare Part D prescription drug plan benefit and that are on the drug list.

How will I determine my drug costs?

SilverScript groups each medication into one of five tiers. Use your formulary to find out the tier your drug is on to determine how much it will cost you. The amount you pay depends on the drug's tier and whether you're in the Deductible (if any), Initial Coverage, or Catastrophic Coverage Stage. As you move from stage to stage, the amount you and the plan pay for your drugs may change. If the actual cost of a drug is less than the normal copayment or coinsurance for that drug, you'll pay the actual cost, not the higher copayment or coinsurance.

Which pharmacies can I use?

More than 60,000 pharmacies with over 20,000 preferred pharmacies nationwide make up the pharmacy network. These include retail, mail-order, long-term care and home infusion pharmacies. To find a network pharmacy near your home or where you're traveling in the United States or its territories, call Customer Care or use our online pharmacy locator tool on Caremark.com.

You generally must use a network pharmacy in order to receive full benefit coverage on your prescriptions. You may get drugs from an out-of-network pharmacy in an emergency, but you may have to pay the full cost (rather than your normal share of the cost) at the time you fill your prescription. If you use an out-of-network pharmacy, we will reimburse you your total cost minus your copay amount for the drug. You must submit a paper claim in order to be reimbursed.

If you want to know more about the coverage and costs of Original Medicare, look in your current *Medicare & You* handbook. View it online at Medicare.gov or get a copy by calling 1-800-MEDICARE (1-800-633-4227), 24 hours a day, 7 days a week. TTY users should call 1-877-486-2048.

The formulary and/or pharmacy network may change at any time. You'll receive notice when necessary.

Plan features and availability may vary by service area.

Participating health care providers are independent contractors and are neither agents nor employees of SilverScript. The availability of any particular provider cannot be guaranteed, and provider network composition is subject to change.

For mail-order, you can get prescription drugs shipped to your home through the network mail-order delivery program. Typically, mail-order drugs arrive within 10 days. Specialty pharmacies fill high-cost specialty drugs that require special handling. Although specialty pharmacies may deliver covered medicines through the mail, they are not considered "mail-order pharmacies." Therefore, most specialty drugs are not available at the mail-order cost share.

SilverScript Employer PDP is a Prescription Drug Plan. This plan is offered by SilverScript Insurance Company, which has a Medicare contract. Enrollment depends on contract renewal. Aetna and CVS Caremark® are part of the CVS Health® family of companies. Other Pharmacies are available in our network.
